

MARITIME SERVICES ASSURANCE & CONSULTANCY

MMS Assurance and Consultancy provides:

- Vessel screening, evaluation of the vessel's technical and operational information and provides update to the prospective charterers and clients.
- Management review on Tankers / Offshore Operators on behalf of Clients for Tanker Management Self-Assessment (TMSA) / Offshore Vessels Management Self-Assessment (OVMSA) audits.
- Roving Marine Marshall Services (RMMS) to conduct assurance for upstream activities by onboard inspection on safety compliance, bridge management, fuel consumption, etc. on behalf of Clients.
- Marine Professionals for Project Management services such as to support PETRONAS Integrated Logistic Centre Team (ILCT) in conducting assurance and pre-hire inspections.

- Marine assurance and consultancy services to clients
- Provide innovative and value-adding recommendations for further improvements based on industry's best practices

What We Offer

- Eliminates substandard vessels from performing services to clients
- Ensures good quality vessels and operators engaged by the clients
- MMS plays the role as the gatekeeper and entry point of maritime services to client
- Regulate and ensure high standard of safety being maintained
